PROFILE

Economics graduate who builds. Five years of project work across DeFi finance, digital marketing and two own companies. I do my best work where finance, operations and tech overlap.

HOW I WORK

I build with AI every day: Claude and Claude Code for research and code, Hermes for agents, Python for everything custom. Prototype fast, then check the numbers myself.

SKILLS

Financial reporting & analysis

DeFi & on-chain analysis

Python · R · Excel

AI agents & automations

Shopify automations

Meta / Google Ads · Web & SEO

LANGUAGES

German – native

English – fluent (C1)

EXPERIENCE

03/2022 –
09/2025

USDFI – Arrow Trade AG, Brig (CH)

Financial Operations & Project Coordination · freelance, alongside studies

- Got a close look at how a DeFi protocol models and automates its finances: liquidity pools, aggregator swaps, tokenomics, smart-contract logic.
- Prepared financial reporting for Web3 marketing and content campaigns; traced on-chain transactions.
- Second-level support for complex customer cases; supported the team at international trade shows.

05/2020 –
10/2025

Ducati Frankfurt – Torantino GmbH

Digital Administration & Event Management · freelance, alongside studies

- Built and ran the dealership's online presence: website, social media and Meta/Google campaigns that brought more web traffic and sales leads.
- Organised community events for riders and brand fans: track days, group tours and dealership events.

05/2020 –
01/2026

RETO GbR & JuT Vintage GbR

Co-founder & Managing Director

- Co-founded a digital marketing agency and an online marketplace for vintage goods.
- Responsible for budgeting and finance, Shopify product automations, web design/SEO and growth.

08/2022 –
02/2023

Justus Liebig University Giessen · Data Analyst

- Analysed internal work processes in R and Excel and helped improve them.

06/2018 –
01/2020

Industrieöfen Nolzen, Wuppertal · Assistant

- Part of the "Paperless Company 2020" digitisation project.

09/2025 –
today

Gap year · AI, automations & coding

Self-directed learning · travelled through Asia, then moved to Spain

- Built AI agents and small tools end to end with Claude Code, Hermes and Python, from idea to working version.

EDUCATION

10/2021 –
03/2025

B.Sc. Economics · Justus Liebig University Giessen

Major Finance & Accounting · Minor Marketing

until
09/2019

Technical Diploma · Wuppertal

VOLUNTEERING

01/2020 –
01/2021

Federal Volunteer Service

Integra e.V., Hagen (youth projects) · Panama e.V., Alsfeld (integration of unaccompanied refugee minors)
